

WIRELESS CHARGING COIL

FEATURES :

- Qi standard compliance.
- Size, shape, characteristics customized.
- High mechanical intensity.
- High temperature protection design.
- Operating Temp.:
 - 20°C to 85°C (General)
 - 40°C to 105°C (Automobile)

Qi 2.0
Magnetic Power Profile

CUSTOMIZED

- Customized is welcomed for Qi standard or others
Please refer to the following feature ranges:

Inductance Range	DC Resistance Range	Dimensions Range	Thickness Range
1-100uH	10-1000 mΩ	6-200 mm	1.2-10 mm
